## Work Experiences

Project Officer

with Nelly H. Y. Ng

 May. 2025 –  SPMS, Nanyang Technological University

I am employed as a Project Officer while waiting for my PhD defence. My role entails research on resource theories and quantum algorithms.

IBS Student Trainee, Research Assistant

with Juzar Thingna and Peter Talkner

 Jul. 2020 – May. 2021    PCS, Institute for Basic Science

My goal was to persuade the quantum thermodynamics community to explicitly consider measurement strategies in the operation of quantum thermal machines. I showcased that the appropriate measurement strategy enhances the performance of quantum Otto engines and battery charging processes.
